

Medical Clearance Policy

Medical clearance is required:

- after a contagious illness (Flu, Strep throat, pink eye etc.)
After 5 day absence due to illness
- after an emergency room evaluation, even if the student is not admitted to the hospital
- potential orthopedic injury or suspected fracture
- surgery
- procedures including but not limited to Botox or Alcohol Blocks
- any other health related cause as deemed by the Campus Certified School Nurse

At the discretion of the Heads of Health & Therapeutic Services, a conference or phone call with the student's parents will be conducted prior to re-admittance to ensure a safe transition back to school.

Parents will be asked to fax or email the clearance to the Campus Health Office before the anticipated return to school date. If this is not possible, the campus nurses will distribute an email list of the students who must present to the Health Office immediately upon arrival to school. The email will be sent to the Head of Health Services, Head of Therapeutic Services, Campus Principal, Assistant Principal, all CTC campus nurses, classroom teacher, transportation coordinators, front desk personnel. A copy of the email will be placed on a clipboard to be stored in a secure location determined by the Campus Principal and accessed by the transportation coordinators.

Upon arrival to school, the identified students will be immediately brought to the Health Office & the Campus Nurses will look for clearance form in binder/backpack. If it is completed, the student will be brought to class & clearance will be emailed to team members. If the required clearance is not found, the campus nurses will immediately contact the Head of Health Services.
